

## Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are at this time 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in use in North America. Clark has five major lines of forklifts across the globe, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 individual items built for 20 unique brands of forklifts and automated equipment. Your regional Clark Dealer is your total source for availability of all your components needs offered by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The components warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Worldwide, Clark has one of the most impressive supplier support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the globe to be certified with the globally accepted quality standard ISO 9001 for each and every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has preferred the particularly economical and beneficial system of "Lean Manufacturing" for its assembly plants and application of resources. This structure was established to acknowledge the most efficient approaches of production plant stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The new value engineering agenda combines progressive product development and provides improved consumer support and service within the industry.
