

Meritor Parts

Meritor Part - The Meritor Company is a premier global supplier founded upon 100 years of custom of quality and service. Meritor specializes in integrated systems together with different modules and parts to the original equipment manufacturers and aftermarket equipment within the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage within the worldwide operations. The business values all of their clients and would like to ensure their success while anticipating their diverse requirements. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused individuals. These top-caliber people could rapidly adapt to changing surroundings and freely exhibit the level of performance and commitment necessary in order to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all their workers various possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, braking and suspension systems meant for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is likewise responsible for supporting the needs of their worldwide engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is dedicated to ensuring optimum progress at their aftermarket distribution facilities and production plant which are situated on 5 continents and in 19 nations.

The supplier development network is particularly located to be able to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each part of the company. The DFSS or otherwise known as Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who apply Six Sigma tools to business processes and apply lean methods.
