

Advance-Nilfisk Parts

Advance-Nilfisk Part - Think about how tedious it will be to tidy up your own house right after having a large party, with no help from cleaning equipment. Before, the time upholstery and carpets had the dust beat out of them by hand; brooms, cleaning cloths and brushes were the leading cleaning materials of that time.

The man who founded Nilfisk-Advance, P.A. Fisker, started as an electrical engineer who liked to work on electrical motors. After starting his company in 1906, he started to produce motors to drive coffee grinders, fans, machine tools and drills. Mr. Fisker's vision from the beginning was to have a worldwide business marketing goods worldwide.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning industry. Mr. Fisker invented an incredible, ground breaking vacuum cleaner that could be operated by a single person as it only weighed 17.5 kilos! This invention came in a time where many cleaning machines were massive and required at least 4 operators, therefore, the Nilfisk C1 transformed everything and developed the manner we clean forever. The mastermind behind these very first cleaning equipment remains unparalleled. Cleaning machines provide a brilliant solution to an ongoing dilemma; things get filthy and have to be cleaned frequently, without a lot of effort.

Little by little, the company Nilfisk-Advance expanded all through the years. In the early nineteen eighties the business developed fast when the company became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance forward within the business, aiming to be an active global player in producing professional cleaning equipment. Nilfisk-Advance is currently found in all parts of the world due to steadily acquiring numerous small companies to be able to develop their product selection and presence in new markets. They are proud to offer different cleaning solutions to fit each and every requirement.
